

Appendix E

Table of Pre-Qualified LED Fixtures / Luminaires and Qualification Process

Appendix E: Table of Approved LED Lighting

The 2012 *Table of Approved LED Lighting* was generated under the following guidelines:

- 1. All fixtures must be ENERGY STAR®-qualified, DesignLights Consortium (DLC) approved, or Utility approved.
- 2. If a fixture is not ENERGY STAR®-qualified, see Section E2 of this appendix for approval process instructions and required manufacturer-provided supporting documentation.

Please note, ENERGY STAR® or DesignLights Consortium (DLC) approval for fixture must be completed prior to application submittal. For LED replacement lamps please refer to Appendix F (SCE only).

E2: UTILITY APPROVAL PROCESS

Please note, DesignLights Consortium (DLC) qualification for fixtures must be completed prior to application submittal. For Fixtures/Luminaires not currently covered by an ENERGY STAR label, please utilize the DLC process found at: <http://designlights.org/solidstate.about.php>
Once DLC has qualified the LED fixture/luminaire, Section E1 will be updated.

SUSTAINING MEMBER IESNA

LTL Number: 13592

Prepared For: Cooper Lighting

Catalog Number: ML706830/H750ICAT/494WB06

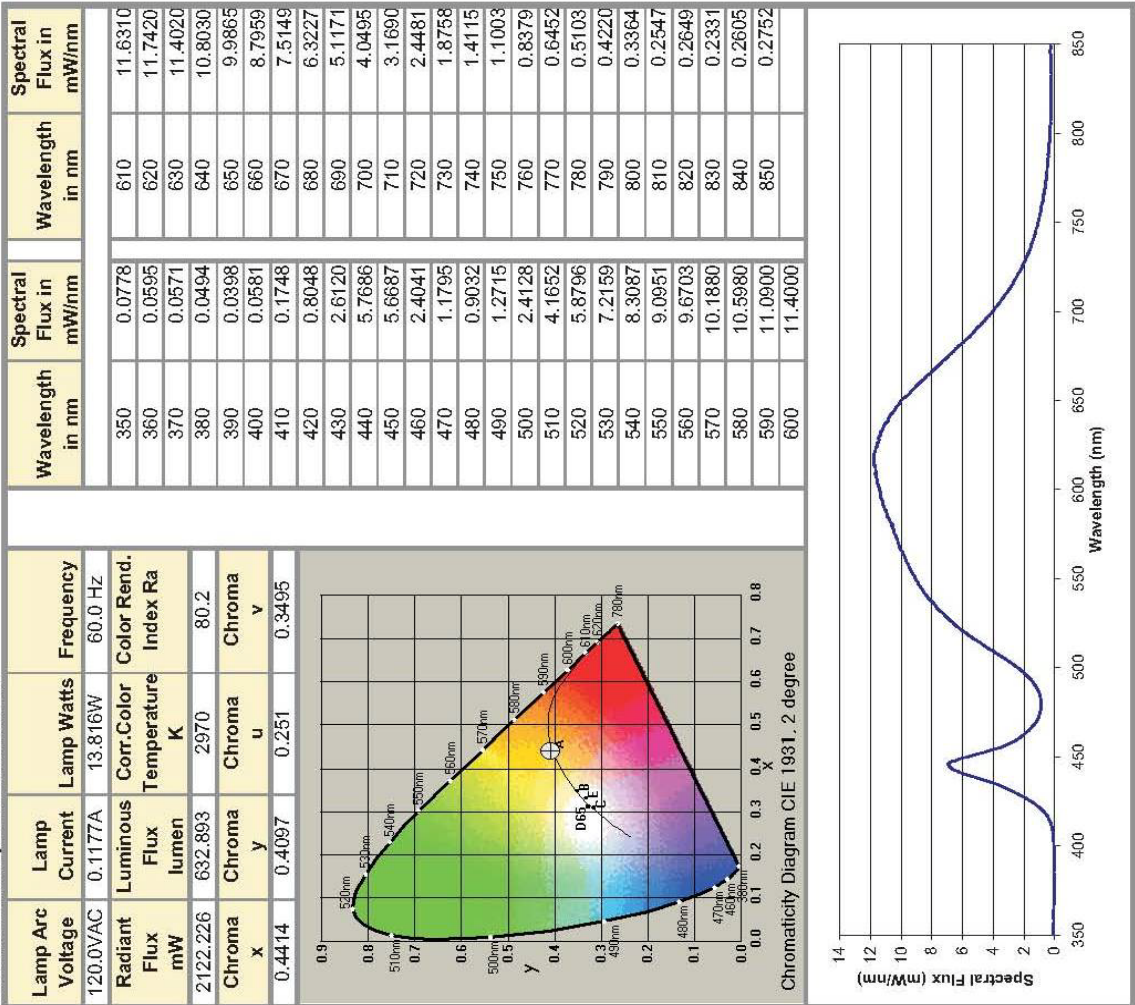

Luminaire: Formed steel housing, formed brushed aluminum upper reflector, spun matte white stepped aluminum lower reflector with white enamel aluminum trim ring.

Lamp: One white LED

LED Power Supply: One unmarked LED power supply

Luminaire Efficacy: 45.8 Lumens/Watt

Date: 07-16-2008

TESTING WAS PERFORMED IN ACCORDANCE WITH IES LM-79-08. Approved By: JS
